Markus Schwartz & Lakou Brooklyn
[Equinox](#)

"The music is the most infectious sound that's come into my home in a long time...it's one of the best sounding digital recordings I've heard. Highest recommendation..."

- Dennis Davis in the April/May 2011 issue of [HiFi+](#)

[Stereophile's Recording of the Month](#), February 2011

"...a new high point for Soundkeeper... immediate-sounding and musically compelling disc of explorations by drummer [Markus Schwartz](#) and his Lakou Brooklyn project...a balance of art and craft that all recordings, audiophile or not, should aspire to."

"...the listener will appreciate a sound that gives the impression of being in the presence of the musicians playing... Another gem for Jazz aficionados and collectors... Highly recommended!"

- Alphonse Piard, Jr. for [Karijazz](#)
